

GranSilo

Hermetic Grain Silo

A unique, purpose-designed and engineered, hermetic grain silo, made from high quality, food-contact polymer, revolutionizes grain storage, increases the length of time grain can be stored while retaining its quality and colour. GranSilo's air and water-tight seal depletes oxygen within it, insects and storage pests within it die before they multiply and cause significant crop losses and prevents increased infestation of pests from outside.

SPECIFICATIONS			
PRODUCT	CAPACITIES	DIMENSIONS CMS	
CODE	LTRS	HEIGHT	DIA
GranSilo	500L	123	74/64

Features

- Store grain longer safely
- Reduce post-harvest losses
