

# KPOT

## Water Storage Pot

Made from food grade polyethylene that is inert to almost all acids, alkalis, chemicals and oils and suitable for use in food and pharmaceutical industries. The material is stabilised against the harmful effects of sunlight hence enabling a long term outdoor usage.

### Features

- Made from 100% Food grade-virgin material
- In-built handles
- Durable
- No change in taste of water
- Safe for storage of water

### Applications

- Outdoor & Indoor Water storage
- Chemical storage
- Agriculture
- Hand wash systems
