

MOBILET

Toilet and Toilet Blocks

Compared to traditional pit latrines, MOBILET is by far the best, least expensive and longer lasting sanitation solution for traditional, fully and partially ecological sanitation wherever pit toilets are suitable. It comprises of two major parts, a slab and a hut. Our unique patented slab toilet is our most popular and affordable product. Available in single or multi-stands, Mobilet toilets fold flat for easy transport and can be installed using a few simple tools. It can also be used with a keyhole design slab over a pit, or as a urine diversion system. Once the pit is full, the toilet can be moved to a new site and the old pit filled, removing a serious safety risk. The Mobilet is best suited for institutional use, like schools, clinics or hospitals, or in refugee and IDP camps.

SPECIFICATIONS			
PRODUCT	DIMENSIONS CMS		
CODE	LENGTH	WIDTH	HEIGHT
MOBILET	100	100	230

Features

- Mobile and re-usable from pit to pit
- 20 years' expected lifespan
