

# INMOTION

## Waste Bins

Made from food grade polyethylene that is inert to almost all acids, alkalis, chemicals and oils and suitable for use in food and pharmaceutical industries, kitchens, offices, garages and more.. The material is stabilised against the harmful effects of sunlight hence enabling a long term outdoor usage.

### Features

- Available in different sizes and colours
- Easy to clean
- Tough and durable
- It is suitable for a wide variety of environments.
- The bin will fit large sized liners.
- Assists with reduction in waste costs
- Easy handling

### Applications

- Outdoor & Indoor Water storage
- Chemical storage
- Agriculture
- Hand wash systems
